

HSK63A TG100 Collet Chucks

- The key reason for the RedLine Collet Systems' accuracy and gripping power is a unique flush nut design. It incorporates a rotating ball assembly producing a "radial float." This forces the collet to self-center for maximum grip, highest precision, and minimum tool wear.
- Flexibility to mill, drill, and ream
- Less tool wear and replacement means less scrap
- **TG100 Collets found on pages 617-618.**

CAT40 TG100 Collet Chucks							
Capacity	Taper	A	Gage Length (B)	D	L	Max. Nosepiece Torque	Part #
